Alex Chen

alex@example.com | linkedin.com/in/alexchen | github.com/alexchen | alexchen.dev | Austin, TX

PROFESSIONAL SUMMARY

Full-stack AI engineer with 6 years building production ML systems. Led the ML platform at a Series B fintech (2020-2024), scaling from 2 models to 15+ in production.

CORE COMPETENCIES

MLOps | Real-time ML systems | Fraud detection | Recommendation systems | CI/CD for models

WORK EXPERIENCE

TechFin Corp

2020 - 2024

Senior ML Engineer / ML Platform Lead

Austin, TX

- Designed real-time fraud detection pipeline: Kafka to feature computation to model inference to decision engine. 99.7% precision at 50ms p99
- Led ML platform team (3 engineers), built internal MLOps tooling: model registry, A/B testing framework, feature store
- Reduced model deployment time from 2 weeks to 4 hours with CI/CD pipeline (GitHub Actions + SageMaker)

DataStartup Inc

2018 - 2020

ML Engineer

Remote

- Built NLP pipeline for document classification (BERT fine-tuning, 94% accuracy on legal docs)
- Implemented search ranking with learning-to-rank models

PROJECTS

FraudShield

Open Source

Real-time fraud detection framework. 500+ GitHub stars

Kafka Streams, feature store, model serving

EDUCATION

MS Computer Science UT Austin — 2018

BS Computer Science UC Berkeley — 2016
